

GHADEER INC (M) SDN. BHD.

Green Spot Solution – Rate and Method of Application:

Crop	Foliage	Fertigation	Type
	(% Solution)/week	(%CC./Liter/Day)	
Vegetables	0.5-1.0	0.2	N & K
Fruit Trees	Refer To Manufacturer		N & K
Horticultural Plants	0.5-1.0	0.2	N & K
Turf	0.5-1.0	0.2	N & K
Cereals	0.5-1.0	0.2	N & K

Note:

i. Foliage Application

Check for compatibility before mixing with pesticides.

Our solutions are compatible with most fungicides and insecticides.

ii. Fertigation

Most rates are applied at 0.2cc/liter/day whereby our solutions are used for correcting deficiencies.

In hydro phonic or soilless cultures, use solution at 1.0cc/liter on a daily basis.

iii. Recommended Hours for Application.

Apply at times of low light intensity, early morning or preferably during the evening.
